

For Immediate Release

NJM/CLI Announces The Availability Of Its Turnkey, Secondary Packaging Lines

January 2004 -- NJM/CLI announces the availability of its turnkey, secondary packaging lines for handling shrink bundled packs of pharmaceutical or food products. As the line integrator, NJM/CLI combines best-of-breed technology, including Belcor case erectors and tapers, NJM/CLI print and apply labelers and Hi-Speed checkweighers to meet the exact needs of each customer. Additionally, online inspection such as bar code scanners and vision systems can be included. With its integration services, NJM/CLI provides a wire way, housed in stainless steel, to operate the back-end packaging line from one touch screen control panel. These integrated secondary packaging lines are available from NJM/CLI in both a semi-automated or fully automated configuration.

About NJM/CLI

NJM/CLI designs, manufactures and supplies a complete range of packaging equipment that allows processors and packagers in the food, beverage, pharmaceutical and cosmetic/personal care industries to optimize productivity. Offering customers single source responsibility, turnkey line integration services and full validation support, NJM/CLI's "total solution" approach assures a seamless experience that satisfies customers throughout the life of each project. Complementing its vast array of self-manufactured packaging machines, NJM/CLI also supplies quality equipment from other leading manufacturers.
