

For Immediate Release:

NJM/CLI Changes Company Name to NJM Packaging

September 26, 2011 – NJM/CLI announces today that it has changed its company name to NJM Packaging. The goal of the change is to simplify the name while better reflecting the company’s focus on providing products and services to the packaging industry.

A one-stop source, NJM Packaging designs, manufactures and supplies a complete range of packaging equipment and offers turnkey line integration, full validation support and after sales service and support. Customers include pharmaceutical, nutraceutical, food, beverage, chemical, cosmetic and personal care product manufacturers as well as contract packers.

“In addition to our name change, we’ve redesigned our logo. The triangles symbolize the three primary areas of our product and service offering – equipment manufacturing, packaging systems integration and exceptional customer support,” noted Daniel Lapierre, Vice President of NJM Packaging. “Devoted to exceptional performance and results one customer at a time, we consistently deliver competitive advantage and greater end-product value to our clients.”

The company expects to complete the name change process – including launching a new website – within the next few months.

About NJM Packaging

For 100 years, NJM Packaging has been the proven packaging systems resource, unmatched for the innovation and quality of our equipment manufacturing, solid dose solutions, expertise in labeling, complete line integration, and truly exceptional support. A one-stop source, NJM Packaging offers expert knowledge and experience from the earliest stages of planning through implementation and production, delivering competitive advantage and greater end-product value to our clients. Our customers include: pharmaceutical, nutraceutical, food, beverage, chemicals, cosmetic and personal care product manufacturers; as well as contract manufacturers.
